PROJECT:
TYPE:

Introducing our innovative high-bay light fixture, designed to meet your lighting needs in warehouses, factories, gymnasiums, logistics centers, corridors, and more. Our high-bay light features a unique "UFO" heatsink design, providing excellent thermal dissipation to ensure long-lasting, efficient operation Invest in our high-bay light fixture and experience the benefits of superior lighting performance, increased efficiency, and reduced maintenance costs.

Features & Benefits
•Unique "UFO" heatsink design with excellent thermal dissipation
•High efficiency SMD LED chips can reach 170lm/w (at 5000K)
•Lightweight, rugged die cast aluminum housing
•Shatterproof polycarbonate lens cover
•Built in Remote Controlled Microwave Sensor (Optional)
•3CCT and 3Wattage selectable by DIP switch
•Accessories can be customized to meet specific needs, providing versatility and flexibility for different applications.
•Accessories: Dust cover, PC cover, emergency kit, U bracket can be assembled and sold separately
•Quick and easy installation saves time and effort
•50,000 hour lifespan provides long lasting, reliable performance
•5 year warranty ensures peace of mind and protection against defects
•Selectable CCT and Wattage reduces the need for multiple SKUs, saving on capital and warehouse investment and accelerating cash flow
