

VBL-MOD-12W-CCT

3CCT LED MODULAR DOWNLIGHT

The 12W LED Modular Downlight Engine features selectable 3000K (Warm White), 4000K (Cool White) and 5000K (Natural White) colour temperatures, allowing you to customise the lighting to suit your space. Designed in a standard MR16 form factor, it is compatible with most MR16 and GU10 downlight trims, making it ideal for new installations or replacement projects.

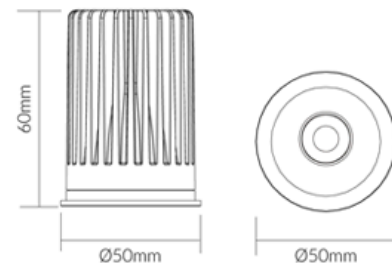

Equipped with high-performance COB LED technology, this modular engine delivers efficient, uniform illumination and is dimmable with most trailing-edge dimmers for smooth light control. Suitable for residential and commercial applications, it offers reliable performance and long-lasting durability, backed by a 3-year warranty for added peace of mind.
