

150W 24V CONSTANT VOLTAGE DRIVER IP20 NON DIMMABLE WITH F&P

VBLD-24V-150W-IP20FP

IP20

Designed for optimal efficiency, this 24V 150W constant voltage LED driver delivers stable, flicker-free power for a range of low-voltage LED applications. With built-in overload and short-circuit protection, it ensures safe and consistent performance. Its compact design and wide input range allow for easy integration into commercial and residential lighting setups. Ideal for use with LED strip lights and other 24V lighting systems.

Features & Benefits

- Non-Dimmable
- Consistent 24V output
- Wide Input Range
- Overload & Short Circuit Protection
- Ensures optimal performance, longevity, and reliability
- Easy integration
- Stable, flicker-free illumination
- Meets safety and performance standards
- Ideal for LED strips and low-voltage systems, • IP20br> rated
- Includes Flex & Plug
- 5 year warranty

150W 24V CONSTANT VOLTAGE DRIVER IP20 NON DIMMABLE WITH F&P

VBLD-24V-150W-IP20FP

Specifications

SKU	VBLD-24V-150W-IP20FP
EAN	9340994031941
Wattage	150 W
IP rating	20
Length	286 mm
Width	42 mm
Height	31 mm
Warranty	5 Years
Constant current/voltage	24V
Lamp Type	LED
Dimming	Non-Dimmable
Wiring method	Flex & Plug
Weatherproof	Non-weatherproof
Working temperature	-20 to 40

Photometric information available upon request.
