

VBLDL-195-1A-3K90

RETRO LED RECESSED DOWNLIGHT

The 195 Series Retro Recessed Downlights are designed for superior performance and versatility in retail and commercial spaces. Delivering 4729 lumens with a high CRI of 90, these 31W LED downlights ensure vibrant and true-to-life colour rendering, enhancing product displays and interior aesthetics.

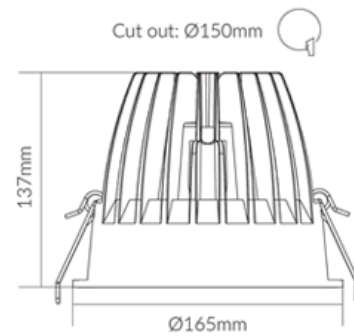

Combining a classic recessed profile with modern LED technology, they provide uniform illumination with reduced glare and energy efficiency. Ideal for replacing traditional downlights, they feature a built-in driver and flex & plug for easy installation. With a 150 mm cut-out and TRIAC dimmable functionality for flexible brightness control, the 195 Series offers reliable, stylish lighting for a range of applications. Compatible with the optional black trim accessory (VBLDL-195-TRIM-BK), it offers adaptable styling to suit various interiors.
