VBLPL-G23-SERIES

3CCT LED PL Retrofit Lamps – G23 Base

The VBLPL-G23 Series are compact, versatile, and energy-efficient LED PL Retrofit Lamps, designed as an ideal replacement for traditional PLC fluorescent lamps. Delivering significantly lower power consumption while providing a longer operational lifespan, they offer a cost-effective upgrade for both new and retrofit lighting applications.

Featuring a 3CCT selectable switch (3000K/4000K/5000K), these lamps offer flexible colour temperature selection while reducing inventory requirements. Advanced LED technology provides consistent, flicker-free illumination, excellent thermal management and a long service life. Designed for easy installation into compatible G23 fittings, they are ideal for commercial and residential retrofit applications, reducing energy consumption, maintenance, and operating costs while delivering reliable, high-quality lighting..

KEY FEATURES

- Direct replacement for 7W, 9W or 11W PL Lamps (2 Pin G23 base ONLY)
- Available in 6W or 12W
- 3CCT Switchable - 3000K/4000K/5000K
- Equipped with EPISTAR LED chips
- Excellent thermal conductivity
- 50,000 hour lifespan
- 2 year warranty

**Can be retrofitted directly to fittings with a magnetic ballast. Fittings with electronic ballasts must be re-wired by an electrician to run directly off 240V*
