

40W LED SOLAR STREET LIGHT

VBSOLL40

Our LED Solar Street Lights are a versatile solution designed to address a range of lighting needs, from dog parks and pathways and car parks - offering multiple options for light intensity to accommodate different applications - mounted at 8-10 metres. Importantly, all models within this series come equipped with user-friendly and adaptable built-in programs, enabling seamless mode changes to suit various lighting requirements. The integrated design combines a high-efficiency solar panel, a Lithium-ion battery, and an LED array into one simple installation package, eliminating the need for complex trenching & cabling. This model is 40W.
